

We see by the Times that Judge Hamilton declines being a candidate before the whig convention for nomination for Congress. How? Has he become satisfied that the other Patriot prophesied truly when it was said a convention was held, the whig Congress in this district must indeed be shameful, ignobly, and over-defeated? Or does he find that Mr. Hamilton, has outgeneraled the strongest man? We know the former is the cause of the withdrawal; if not, we may look for the two Judges are likely to make war against Mr. Hamilton, and his rising greatness. There is no head, and no mistake.

PROSCRIPTION PROHIBITED

OLD VIRGINIA.

Bounding Democratic Triumph!

At the late election for members of Congress in Virginia, the democrats made clean work of it, electing 14 out of 15 members; and the 15th was an independent candidate running in opposition to the regular whig nomination, and elected by democratic votes. The celebrated John M. Botts and Mr. Goggin are among the number of defeated candidates. In the late Congress the delegation stood, 9 democrats to 6 whigs.

The Old Dominion has spoken in a language not to be misunderstood, and has emphatically placed her seal of reprobation on the course of Gen. Taylor, whose duplicity and violation of his repeated pledges have proved him unworthy the further confidence of the citizens of his native State. If the States in which elections are yet to be held do their duty as faithfully as Virginia has done, there will be a democratic majority in both branches of Congress, and the no party President will be left, as he richly deserves to be, with no party to support him.

Another Head Off.—Samuel Medary, Esq., has been removed from the office of Postmaster at Columbus, Ohio, and a whig named A. F. Perry appointed in his place. Perry is like many others appointed by the present administration Mexican whig of the Corwin stamp, and while a member of the Ohio Legislature voted for a resolution denouncing the war and all engaged in it.

The GUILLOTINE has not been playing quite so lively at Washington for the past week, except in the post office department, where the honorable Fitz Henry Warren keeps it in pretty constant operation; but as the official papers do not publish the new appointments, it is difficult to ascertain the precise number of the victims to the anti proscription policy of our no-party President of the whole people, who is resolved to become a second Washington, and follow the example of the earlier presidents. We think by the time he gets through, the people will have learned a pretty good lesson, and not be inclined to trust much hereafter to the sycophants of no-party, or any thing else the whig candidates may promise.

It has been rumored that a design was on foot to establish some sort of a Monster Bank at Washington, to act as a fiscal agent of the government, at the head of which was to be placed the celebrated Mr. Jaudon, of United States Bank notoriety. The design has however been for the present abandoned; the treasury system having so fully answered the purposes of its framers, and been of such inestimable advantage to the country, and the eyes of the people being so fully opened to the danger and uselessness of a moneyed master in any shape—the cabinet have very prudently resolved not to attack the present existing fiscal arrangement.

Defalcation.—Ely Moore, U. S. Marshal for the southern district of New York has been committed to prison on a charge of being a defaulter to the amount of \$20,000. The real criminal it appears, is a deputy named Peck, to whom Moore had farmed out the office for the snug little sum of \$16,000 in hand, and \$175 per month. Peck deposited the missing money in a bank in the name of the U. S. Marshal; but subsequently had it transferred to his own name, and has now absquatuated with it, leaving Moore to suffer the penalty.

CANADA AFFAIRS.—The Canadians appear to have no idea at present of annexation with the United States. The address of the newly formed "League," composed of the disaffected party, after describing a plan for general organization throughout the province, concludes as follows:—

"To maintain that connection inviolate, has ever been and still is the ardent wish of every member of the league. We devoutly hope that no measure of injustice may ever be inflicted; no power may ever be abused to the extent of provoking reflecting men to the contemplation of an alliance with a foreign power; and if there be, as some have said, a time when all colonies must in the course of human events throw off their dependence on the parent state, and if in our generation that time should be destined to arrive, we predict that, if true to ourselves, it will not come until no British hands remain able to hoist the flag of England on the rock of Quebec, and no British voices survive able to shout, 'God save the Queen.'"

The last paragraph gave rise to much discussion, and it was moved to strike it off. The motion to strike it off was lost, from which the inference is strong that the annexationists are in a minority. That such a discussion should take place at all is, however, ominous of the change of sentiment the last few years has produced in Canada.

The TELEGRAPH.—At a meeting of the stockholders on Saturday last, Mr. G. W. Wood was appointed operator at this point. The office will be in the room under the Sentinel office. The line is expected to be in operation some time in June.

NOTICE.

From the Indiana State Sentinel.
The Whig State Convention.
The first annual meeting of "The Fort Wayne Agricultural & Horticultural Society" will be held in the basement of the 1st Presbyterian Church, on Tuesday evening, the 15th of May, at 7 o'clock.

An address will be delivered on the occasion by R. D. TURNER, Esq. A general attendance of the public is solicited.

W. ROCKHILL, Pres't.

T. K. BRACKENRIDGE, Sec'y.

CIRCUS.—Messrs. Maties' grand Olympic United States Circus will be exhibited in this city on Monday week, the 21st inst. The company is quite a large one, numbering in its ranks some of the most celebrated performers in the Union, and we predict the boys and girls will have "quite a time of it."

Latest from San Francisco.—The New York Herald has a letter from Vera Cruz containing intelligence from San Francisco to the 28th February. Upwards of 50 vessels had arrived at that port within a week; the market was glutted with goods, and sales dull at New York prices. The crew of the steamer California had all deserted and gone to the mines, and it was doubtful when she would be able to return. The gold continued in all its former abundance.

A new placer had been discovered in Lower California, far exceeding in richness any on the Sacramento.

Kansas Election.—The whig papers have been claiming the election of a whig Governor in Arkansas. The official returns show that as usual they were reckoned without their host. The vote polled was very small, only a little over 6000 being given. Roane, democrat, is elected.

New Books.—The lovers of light literature will be gratified to learn that WALKER has received a large supply of the cheap and popular publications of the day, including the latest issues of all the most celebrated writers of fiction.

He has also replenished his stock of standard works, stationery, fancy articles, &c. and now has on hand so general an assortment, that purchasers can scarcely fail to find any thing they want in his line.

More New Goods.—As will be seen by our advertising columns, our merchants have now mostly received their spring stocks, and we hazard nothing in saying that no place in the State probably can show finer or more complete assortments, and in none can better bargains be had, or goods be bought on more accommodating terms.

The new arrivals advertised this week are B. Mason's, who is resolved to maintain the high reputation his store has hitherto maintained. S. & W. S. EDGAR'S, who though they do not usually blow much in the papers, intend to sell as cheap as the cheapest. HILL, WILSON, & CO. have also completed their assortments, and offer goods at wholesale, or retail on the most favorable terms. ORRY & SCHWEIGMAN are also on hand with a choice assortment of the newest and best—selected in New York by Mr. Schwiegman, whose known taste in such matters is a full guarantee that the ladies will find just the articles they want. AYLWORTH & BORDEN also come out with a new advertisement; in addition to what we said on their behalf on a former occasion, we will add that they have on hand a large and splendid assortment of Carteting, which they are enabled to offer at the New York retail prices.

Mr. R. C. FILSON has just opened a *Fancy & Novel Store* on Calhoun Street, under the Old Fellow's Lodge, where the ladies will find a great variety of such articles as they need—many of which are not to be had elsewhere.

At all these places new goods have been received; at each of them may the newest fashions be procured; and at any of them may bargains be had. All we have to say to our readers, is—look at our advertising columns, and you will learn where to make your purchases.

SOUTHERN RAIL ROAD.—An Important Note.—We learn that a majority of the stock of the Southern Rail road has changed hands. The purchasers are Thomas W. Wolcott, Rufus H. King, and others of Albany, Mt. Bliss, late president of the Western Road to Boston, and Charles Butler, Apolinwall, Howland and others of New York. They have also bought the charter of the Buffalo & Mississippi Co. from the Indiana State line to Chicago.

At the Indiana line the Southern road will intersect the other and make a continuous road to Chicago. We hear that it is the intention to

revive the Toledo & Adrian road, also the Southern road from Adrian, west, and make Toledo the terminus of the heavy iron road;

and that immediate steps will be taken to prosecute the work through to Chicago. The present flat rail to remain on the road from Monroe to Adrian. This taken together with the effort being made at Buffalo for a road from that city to Erie, and the works on the road from Cleveland to Sandusky this summer, gives

evidence that within a short time there will be a continuous road around the Southern shore of the Lake, to connect at Toledo, and thence to Chicago.—*Dayton Bulletin.*

Gen. Taylor reminds us of the story told of a "green un" when he first saw a locomotive. He admired the *conservus vermic*, looked all around it and examined it in every particular. He finally stepped on it and pulled out the starting bar, and away the locomotive and the "green un" went at the rate of forty miles an hour. Without the ability or knowledge to govern the machine he had put in motion, so soon as he came to a stand part of the road, he and the engine were soon dashed to atoms. Gen. Taylor has hold of the starting bar of our Government, and is without the knowledge necessary to manage it. He is just coming to the uneven road, and it will be well for the people, if in the general smash, the government locomotive is not injured to be not worth repairing.—*Maryland Courier.*

Tobacco a Cure for Cholera.—Dr. John W. Moore states, in a Mobile paper, that he cured one hundred or more extreme cases of the cholera, not losing one, by the use of tobacco. He administered it in the form of an enema, of the strength of one drachm to a pint. He first tried it upon a negro, whose pulse was gone; his tongue was cold, and his muscles so rigid that he rested only on his head and heels. In five minutes he was relieved, and the cure perfected by drinking a decoction of tea. In his own case, Dr. Moore took into his stomach a spoonful of the tobacco decoction, with perfect relief from cramp and diarrhea. He has no doubt but that cholera may be as easily managed as the fevers of our country.

Democrat of Allen County!—It is the time for holding our County convention. We hope to see every delegate—every delegate at his post—and all animated by such a feeling of devotion to the cause as will secure the harmony of our deliberations, and ensure the election of our nominees.

NOTICE.

The Whig State Convention.

The second Whig convention to nominate a candidate for Governor, who would sick, was held in this city on Thursday last. On motion of Milton Stapp, who is now considered the generalissimo of the Taylor whig forces, Col. Johnny Vawter, the "motion maker," was appointed temporary chairman, and C. T. Noble, Esq. of Vigo county, appointed temporary Secretary. A committee of ten was then moved, (by some one who desired to just Johnny from the chair,) to report permanent officers of the Convention. This committee nominated Colonel Henry S. Lane of Montgomery county for President; some persons as Vice Presidents, and Mr. Farquhar of Franklin county, as principal Secretary, with two or three assistants, including Mr. Noble of Vigo.

General Stapp then proposed a plan of nomination, giving each county the number of votes to which they are entitled in the General Assembly, and appointing a committee of one from each congressional district to report the result of the votes in the several districts.—There being but a single representative from all the 14 counties composing the 10th district, the question was raised by him whether he should be authorized to cast the vote for those counties! He thought that would look a little like "Ruckerism." Being modest, he was let off by giving the vote of his own county, and appointing himself to represent the district in the nominating committee of ten. Pretty unanimous, that!

Mr. Vawter proposed to get rid of the difficulty by appointing a committee of ten by the convention, to make the nomination; but this was the blockade, and Stapp's plan was adopted.

All this fuss, however, was unnecessary; for it was known to the wire workers, that the nomination of John A. Mason, had been privately agreed upon the night previous. Mr. Vawter rather indelicately alluded to this in some remarks which he made.

Accordingly when Mr. Hammond from the committee reported, the announcement of John A. Mason as the candidate was received as a matter of course, and the leaders forgot to make any demonstrations of applause.

Mr. Matson was introduced, by Mr. Deacon, from a committee for that purpose, expressing gratitude for the nomination, especially as the *auspices* were unfavorable to his success,—this indicating, in his opinion, greater confidence in his party than in his.

He has also replenished his stock of standard works, stationery, fancy articles, &c. and now has on hand so general an assortment, that purchasers can scarcely fail to find any thing they want in his line.

In Affairs Italy.—The republicans are still in the utmost confusion. The republican party have been put down in Genoa, after having had command of that city for nine days.

In Tuscany there has been a general rising of the people in favor of the Grand Duke.—The late dictator is now a prisoner.

The landing of the French army at Civita Vecchia will doubtless put an end to the Roman Republic, and be followed by the restoration of the Pope.

Venice is besieged by sea and land, by the Austrians, and must soon surrender.

SICILY.—Great Battle fought.—Catania Sacked—Syracuse Surrendered.—The struggle has commenced, and a dreadful battle was fought on Good Friday (the Friday before Easter Sunday) between the Neapolitan and Swiss troops, and the people of Catania, which lasted all night, and ended in the defeat of the Cataniens. A large number was killed on both sides. The city of Catania was sacked and plundered. The riot caused by this defeat, and by the outrages committed, made the Syracuseans surrender their city without striking a blow in its defense.

Germany.—Troubles about the Imperial Crown.—Germany is still in a state of great confusion. The Prussian Government has, it is said, obtained the assent of a portion of the smaller states, to the assumption of the imperial crown, by the King of Prussia, as Emperor of Germany.

Austria is violently opposed to any plan which will transfer the power and imperial dignity from the House of Bradenburg (which now governs Austria) to that of Bavaria.

The third class Kingdom in the Germanic Confederacy, are scarcely less so, and France and Russia are both strongly opposed to the change. All the other difficulties could, however, be got over, if the smaller states of Germany were unanimous in favor of the union with Prussia; but this is not the fact.

Hanover (in the English interest) and Saxony too, strong a sense of their own interest, to admit the reconstruction of the German Empire at the basis proposed at Frankfurt. In a word Germany assumes a more warlike appearance than ever.

AUSTRIA AND HUNGARY.—The War continues.—Success of the Hungarians.—The Austrian General in a tight place.—The Austrians are in as great a difficulty as ever. Forced to retreat with all their divisions towards Perth, they have been repelled by the Hungarians.

The Hungarian Fortress of Comorn, on the Danube, which now besieges the Austrian army and which the Hungarians, feeling its importance, are making desperate efforts to relieve. Should they succeed in forcing the Austrian forces to raise the siege, the cause of Austria in Hungary will be desperate indeed.

Progress of Feeding in Canada.—Primer meetings have been held in Montreal for the organization of a national convention of the two Canadas, to take into consideration the present condition of those colonies, and the propriety and necessity of changing their existing form of government.

This convention, as we learn from a correspondent of the Herald, will consist of a certain number of delegates, equal in numerical strength to the surrounding country is in possession of Mazzarino, the Hungarian Commander.

The Vienna papers of the 11th instant, further give information of the important position taken by the Hungarians.

The German papers give an account of an action between the Austrians and Hungarians, in which Wirlenbratz at the head of the best regiment in the Austrian army, attempted to arrest the progress of the Hungarians marching to the relief of Comorn. A fierce and desperate engagement ensued, in which the superior tactics of the Hungarians proved irresistible.

Some Queries.—If a "no party" President, is to be succeeded by another, who will be more valuable to the party? If he had come into power as a party President? If he would have done more precisely the same thing, than what is the difference between "party" and "no party"? If there be none at all, why should good men be prostrated for being known as "Democrats?"

Answer.—It was the remark of a Roman consul in an early period of that celebrated republic, that a most striking contrast was observed in the conduct of candidates for offices of power and trust, before and after obtaining them.

On the one hand, the *conservus vermic*, who were fond of reward, and no enemies to punish—but it is very natural that, wedded as he has been since his inauguration, by the sanguine and bigoted opposition in his cabinet, and by the pragmatical and flippancy attitude, almost amounting to meanness, thrust upon him by those who wish to school him into the small ways of party, he should long for the establishment of a paper, conducted by intimate friends, who have honesty enough to coincide with his in policy, and firmness enough to help him to sustain it.

It is natural to suppose that the establishment of the special organ of Gen. Taylor, is very distasteful to the existing organs. The latter reflect peculiarly and solely the views of the proprietors of the paper, the former of the annals of some of the modern elective governments would develop many similar instances of violation of confidence.

General Harrison.

Expllosion.—The steamer Louisiana on her last trip from Chicago to Buffalo, burst her steam chimney, killing three men instantly, and scalding two others so badly that one died, and the life of the other is despaired of. The Steamer Michigan went to the assistance of the Louisiana.

To Preserve the Plum.—Not one of the disappointments of the day is greater than that the cultivators of good Plums meet with, in their falling from the tree before they are ripe. This is attributed to the fruit being pierced by insects in its tender stages, before or soon after the blossoms open. To prevent this, is to keep the insects from the tree, and experience has proved that sulphur will do it. The plan most practicable is to mix sulphur and tar, in proportions of one pound of the former to two of the latter, and to dip tow or old cloths in this mixture, and hang several pieces in the tree, especially where they will be exposed to the sun; and as the insects work only when the days are warm, will not approach the fumes of sulphur.

Extensive Counterfeiting.—It is said that nearly one hundred thousand dollars in spurious coin has been shipped from New York to California. Large quantities of materials, presses and implements for the manufacture of coin, have been discovered in New Jersey. It is supposed that the government will immediately despatch an agent to seize the counterfeiters and coin.

AUGUST ELECTION.

We are desired to announce the name of JAMES S. HAMILTON, as a candidate for reelection as County Commissioner. p.

Correspondence affaires.

Montreal, April 28.

The difficulties still continue without abatement, and the indications portend serious results.

In consequence of the announcement that the governor had given orders to put under arms five hundred French constables, and the fact that these men actually appeared in the streets, the mob became still more exasperated. A party composed of twenty English gentlemen, formed themselves into a body and encountered these armed police, or constables, in the streets, when quite a fierce engagement ensued.

Shots were exchanged, and in the conflict two men were badly wounded and others slightly. The government authorities perceived that they had adopted rather an unpopular measure, and in order to preserve peace, countermanded the order in regard to the constabulary force and had them disbanded.

A public meeting was held on Friday, and largely attended. Petitions which had been gotten up were presented to this meeting, numerously signed, asking the Queen to recall Lord Elgin, and disavow the rebellion indemnity act.

All the hotels of the city are now guarded by armed forces. The garrisons have also been fully equipped for action, and the soldiers put under strict discipline. Cannon have been planted in the streets, at different points, for the purpose of overawing the disaffected.

Montreal, April 30.

The mob assembled late on Saturday night, but by the strenuous exertions of Col. Guy, they were prevented from doing any mischief. The city continued quiet last night.

THOMAS TIGAR,
EDITOR AND PUBLISHER.

OFFICE.—Over P. P. Bailey's Hardware Store, corner of Clinton and Columbia streets; Third Story.

POETRY.

The Bride's Prayer for the California Adventure.

BY MAJOR G. W. MILLER, U. S. A.

Father! I come to Thee—a hundred weeks—
Not as when east I came, with bridal bough,
But hitherto tears, the tulip-shrub I break,
Perchance my care sits heavy on my brow.

Gifts of love though manifold Thou art,
One prayer I would—our only boast leave—
Watch, blos and guide him over the pathless wave!

I suffer for him! There! vigil eyes!
Seen heavy with a sense of onward weight;

Too soonly I've gazed upon the skies,

Watching the clouds whose chagrin he fate.

I steep Then with an offering—Father, look!

With kindness on me—listen to my prayer
My heart with various thoughts remains here,
Holding it fast with pain and withering care.

—The soft soothings of our mutual love,

Over whose soft smile these watching eyes grow dim.

Father! Thee love's sacrifice can more,

My arms present—oh wild exchange!—for me.

SAMUEL HANNA.

FL. Wayne, Nov. 20th, 1847.

B. W. OAKLEY.

THANKFUL for the lessons of the past, we hope to find in the old customers and young generation a spirit of enterprise and energy, which will bring us success, and a still longer life, so that the cause of navigation off demands for the season can be promptly filled.

STOVES.

From the Pittsburgh Daily Morning Mercury.
This and Pennsylvania Rail Road.—Meeting of
the Citizens of Pittsburgh.

Whether the "IMPERIAL AIR TIGHT" first, because we consider them readily foreseen to be the best.

The latencies of the hour at which the meeting terminated, prevented us from giving the speeches of Mr. Roberts and Col. P. H. Weston, which we, therefore, promised to furnish to-day, together with the resolutions. We give the speeches of course in their order.

Mr. Roberts said:—

Through the kindness of the Board of Trade of Pittsburgh, we are now assembled in their new rooms, which are opened to sight for the first time for the purpose of holding a public meeting to promote the construction of the Ohio and Pennsylvania Rail Road, to connect this city with the great West.

There is no object to which this place could

be applied, more appropriate or more important.

Your great western "back bone" line of 164 miles from Pittsburgh to Mansfield, by Mansfield and Wooster, (with one continuation, unbroken cluster and no great rivers to cross,) is the inland route which strikes directly through the rich wheat region of Ohio.

By Mount Union it will give you the shortest line to Cleveland; and by Fort Wayne the shortest line to Chicago, which is the capital city and natural outlet of the mighty empire of the north west. From Pittsburgh in Chicago, the rail road distance is somewhat less than five hundred miles, and beyond that point we may already study the progress of Wisconsin, Iowa, and Minnesota, and

consider that any one wishing a store can take it, and bring it back again if it does not work well. Last, & least, let me say that the capital benefit of those who purchase this is a better article.

PRIMIUM STOVES.

Among the different kinds of Furnace Stoves we have the "Troy" to the excellent qualities of which all who have examined them will readily attest. We also have the "Imperial Air Tight," and the "Pennsylvania" Air Tight, and the "Quaker" Air Tight.

We have also the common producer from Boston and Cincinnati, and, but though not equal to the "Troy" and "Imperial," they are good, and recommended that any one wishing a store can take it, and bring it back again if it does not work well. Last, & least, let me say that the capital benefit of those who purchase this is a better article.

PRIMIUM STOVES.

We see by the Times that Judge Han-
des being a candidate before the whig
convention for nomination for Congress. Now

Has he become satisfied that the
Patriot prophet is truly when it
is a convention was held, the whig
Congress in this district must in-
shamefully, ignobly, and over-
defeated? Or does he find that
Mr. Hamilton has outgeneraled
the strongest man? We
in the former is the cause of the
war; if not, we may look for
in the friends of the two
which the contest between the
two—the houses of York and
the feds between the Mon-
archs were but mere children's
play.

was in town on the day
withdrawal was announced—
that he had any thing to do
but hear it hinted that the
two Judges are likely to make
se against Mr. Hamilton, and
possible his rising greatness. There
meant, and no mistake.

PROSCRIPTION, PROSCRIBED

OLD VIRGINIA. Outstanding Democratic Triumphant!

At the late election for members of Con-
gress in Virginia, the democrats made clean
work of it, electing 14 out of 15 members;
and the 15th was an independent candidate
running in opposition to the regular whig nomi-
ninee, and elected by democratic votes.

The celebrated John M. Botts and Mr. Goggin are
among the number of defeated candidates.

In the late Congress the delegation stood, 9
democrats to 6 whigs.

The Old Dominion has spoken in a language
not to be misunderstood, and has emphatically
placed her seal of reputation on the course of
his oft-repeated pledges have proved him unw-
orthy the further confidence of the citizens
of his native State. If the States in which
elections are yet to be held do their duty as
faithfully as Virginia has done, there will be a
democratic majority in both branches of Con-
gress, and the no-party Presidents will be left
as richly deserved to be, with no party to
support him.

Another Head Off.—Samuel Medary, Esq., has been removed from the office of Postmaster at Columbus, Ohio, and a whig named A. F. Perry appointed in his place. Perry is like many others appointed by the present ad-
ministration a Mexican whig of the Corwin
stamp, and while a member of the Ohio Leg-
islature voted for a resolution denouncing the
war and all engaged in it.

THE GULLOTINE has not been playing
so lively at Washington for the past
week, except in the post office department,
where the honorable Fitz Henry Warren keeps
it pretty constant operation; but as the official
papers do not publish the new appointments,
it is difficult to ascertain the precise
number of the victims to the anti-prescriptive
policy of our no-party President of the whole
people, who is resolved to become a second
Washington, and follow the example of the
earlier Presidents. We think by the time he
gets through, the people will tell that they have on
hand a large and splendid assortment of Cor-
porating, which they are enabled to offer at the
New York nail prices.

Mr. H. G. Frissor has just opened a Fancy
& Novel Store on Calhoun Street, under the
Old Fellow's Lodge, where the ladies will
find a green variety of such articles as they
need—many of which are not to be had else-
where.

At all these places new goods have been re-
ceived; at each of them may the newest
fashions be procured; and at any of them may
hargains be had. All we have to say to our
readers, is—look at our advertising columns,
and you will learn where to make your pur-
chases.

SOUTHERN RAIL ROAD.—An Import- tant Measure.

We learn that a majority of the stock
of the Southern Rail Road has changed hands.

The purchasers are Thomas W. Wolcott, Hu-
ff E. King, and others of Albany, Mr. Bliss,
late president of the Western Road to Boston,
and Charles Butler, Amherst, Howland and
others of New York. They have also bought
the charter of the Buffalo & Mississippi Co.,
from the Indiana State line to Chicago.

At the Indiana end the Southern road will inter-
sect the other and make a connection road to

Chicago. We hear that it is the intention to
make the Toledo & Adrian road also the

Southern road from Adrian, west, and make

Tulsa the terminus of the heavy iron road;

and that immediately steps will be taken to pro-
secute the work through to Chicago.

The present road to remain on the road from

Monroe to Adrian. This taken together with

the views of the agents of this city, rep-
resenting the views of a portion of the cabi-
net, and the other and makes it a natural road to

Chicago. It is the intention to make the

new road to Adrian, west, and make

Tulsa the terminus of the heavy iron road;

and that immediately steps will be taken to pro-
secute the work through to Chicago.

The present road to remain on the road from

Monroe to Adrian. This taken together with
